The indicated allowability of claims 1, 34-39, and 42-50 is withdrawn in view of the newly discovered reference(s) to Chobotov and Douglas. Rejections based on the newly cited reference(s) follow.

***Claim Objections***

Claims 36, 37, and 42 are objected to because of the following informalities:

In claim 37, on lines 1-2, "the wire in each support" lacks antecedent basis.

In claim 36, on line 2, "structure" (second occurrence) should be ---structures--- to be grammatically correct.

In claim 42, line 10, "the wall sections" lack antecedent basis.

Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 35 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 35 is dependent upon a cancelled claim, and therefore, its scope is undeterminable. It will not be evaluated on its merits because of its undeterminable scope.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3738

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 34, and 37-39 are rejected under 35 U.S.C. 102(e) as being anticipated by Chobotov (US 6,395,019). Chobotov anticipates the claim language where the main body as claimed is the main body portion (84) of Chobotov (see Figure 6), the first portion as claimed is the first bifurcation portion (82) of Chobotov, the second branch portion as claimed is the second bifurcation portion (83) of Chobotov, the sliding links as claimed are the links (68) of Chobotov (see Figure 5), and the wall strut as claimed is the strut(s) of rings (67).

Claims 1, 34, 36-39 and 42-50 are rejected under 35 U.S.C. 102(e) as being anticipated by Douglas et al (US 2002/0165602). Douglas anticipates the claim language where the main body and branch portions are shown in Figure 1; see also Figures 3 and 6 and paragraphs 79, 80, 49, 50, 52 and 83. In addition, claims 9 and 25 of Douglas disclose limitations of the present dependent claims.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Applicant should specifically point out the support for any amendments made to the disclosure, including the claims (MPEP 714.02 and 2163.06). Due to the procedure outlined in MPEP 2163.06 for interpreting claims, it is noted that other art may be applicable under 35 USC 102 of 35 USC 103(a) once the aforementioned issue(s) is/are addressed.

Applicant is respectfully requested to provide a list of all copending applications that set forth similar subject matter to the present claims. A copy of such copending

claims is respectfully requested in response to this Office action if the application is not stored in image format (i.e. the IFW system) or published.
